ECP Protocol:

Extracorporeal Photopheresis for the Management of Progressive Bronchiolitis Obliterans Syndrome in Medicare-Eligible Recipients of Lung allografts (CAG-00324R2)

Protocol Version 7.1 February 28, 2018

Sponsored by:

Washington University School of Medicine

I, the Investigator of Record, agree to conduct the study in full accordance with the provisions of this protocol. The signature below constitutes approval of this protocol and provides the necessary assurances that this trial will be conducted according to all stipulations of the protocol, including all statements regarding confidentiality, and according to local legal and regulatory requirements and applicable U.S. federal regulations and GCP guidelines.

I have read and understand the information in this protocol and will ensure that all colleagues and project participants assisting in the conduct of the study adhere to all aspects of the protocol as approved. I attest that all engaged study team members have undergone human subject's research training, and I agree that documentation of such training will be maintained and provided upon request.
